***'Every thing you need to know'***

Dear sir / Madam ,

Come July and it is BRACE time once again, where BIR alumni meet old friends, renew their acquaintances, have food for thought as well as refresh and update their knowledge.

We proudly announce the much awaited event BRACE 2011-Barnard Institute Of Radiology Alumni advanced continuing education. This academic feast will be hosted by the Barnard Institute of Radiology ,Chennai on the 8<sup>th</sup>,9<sup>th</sup>,10<sup>th</sup> of July 2011. This is the fifth in the BRACE CME series following the successes of the previous years ,starting from 2007.

Chest Radiology is the cornerstone for both the resident, practicing radiologist as well as clinicians of all specialties. The past few years have witnessed a spurt in cardiac imaging with the advent of high end cardiac MRI and coronary CT angiogram. Hence this year's theme will be on chest and Cardiovascular imaging-*every thing you need to know*, covering from the plain radiographs to the HRCT and CT angiograms .

Other than our very own BIR alumni, we have reputed guest speakers specializing in chest and cardiovascular radiology bolstering our own faculty this year. Special quizzes and posters are also on.

We are limiting the registrants to 250 – on a first come , first serve basis .We solicit your kind cooperation and coordination in conducting the conference in a splendid and flourishing manner

Thanking You

PROF .N .KAILASANTHAN  
Organizing secretary

PROF .K.VANITHA  
Organizing Chairman
